

The Jantzen Beach Carousel: One of Oregon's Most Endangered Places in 2012

Given the Carousel's unique design, high-level of historic significance, and cultural value to generations, the carousel found its way to Restore Oregon's Most Endangered Places list when it was dismantled, stored, and no longer in operation. After five years of diligent work, Restore Oregon has saved it and now we need your help to find it a new permanent home so it can "turn" once again as a year-round family attraction. We can't do it without you!
